Les GMC sortant des bateaux et roulant sur les plages, lors du Débarquement en Normandie, apparaîtront toujours comme une image symbole de la Libération, tant il est vrai qu'une armée en campagne ne peut exister sans les moyens de transport et de support logistique. Construit à plus de 800 000 exemplaires, le GMC, camion bâché de 2,5 tonnes à 6 roues motrices, fut au camion ce que la jeep fut au véhicule léger.

Der in mehr als 800 000 Exemplaren gebaute GMC LKW mit Plane von 2,5 Tonnen mit 6 angetriebenen Rädern, war bei den Lastkraftwagen das, was der Jeep bei den leichten Fahrzeugen war.

I GMC che escono dalle imbarcazioni e rotolano sulle spiagge, durante lo sbarco in Normandia, resteranno per sempre un'immagine simbolo della liberazione, perché è certo che un esercito durante una campagna militare non può sussistere senza mezzi di trasporto e logistica di supporto. Con più di 800.000 unità costruite, il GMC, camion a 6 ruote motrici da 2,5 tonnellate, rappresentava per i camion ciò che la jeep rappresentava per i veicoli leggeri.
